

BFR Expertise & Solutions – Benelux

Why BFR Expertise & Solutions?

You work hard to develop your business. Source your products. Find new clients. Deliver on time. Your suppliers ask for prepayment or guarantees. Your clients ask for payment delays of 30 – 60 days or more. Often, they don't pay on time or worse: they don't pay at all.

Many solutions exist to optimize your Working Capital. Factoring (with or without recourse, total turnover or single invoice), Invoice Discounting, Asset Based Lending, Invoice Market platforms, Reverse Factoring or Supply Chain Finance Solutions, Dynamic discounters, specialist import-export finance providers, Credit Insurance, Collection agencies, Business Information services, etc...

Each of these solutions has its merits, but which one is/are the best for your specific situation?

Let **BFR Expertise & Solutions** help you in finding the right answers. No strings attached!

How it works?

1. You appoint us as your broker/intermediary by filling out a short standard **mandate** document. No costs are involved for you.
2. Together we look at your activity, turnover, countries of operation, type of clients, payment terms, procedures and solutions in place, etc...
3. We then analyse this information and make **recommendations** for Working Capital optimization adapted to your specific business environment. Based on our experience and network with most of the market players, we can negotiate optimal contractual conditions.
4. Based on a thorough comparison of the different market proposals, **BFR Expertise & Solutions** will **advise** you on choosing the best finance or service provider(s) for your specific situation. The provider pays us an introduction fee only when a solution is effectively put in place. There are no costs involved for you.

For which companies is BFR Expertise & Solutions best suited?

All corporates with a Business-to-Business activity who grant open account payment terms to their clients can benefit from BFR Expertise & Solutions. Especially **internationally** operating companies with a turnover between **1 million € and 50 million €** appreciate our services.

Who we are?

BFR Expertise & Solutions is a Paris-based international consulting and brokerage firm specialising in financing and protecting working capital with more than 20 years of experience in this field and founding member of the Farosol broker network. Through this network we can offer solutions for clients globally. **BFR Expertise & Solutions** is represented in Belgium by Erik Timmermans, an internationally acknowledged and awarded expert in Receivables Finance solutions.
